If every woman who gives neckwear would make her purchases here, all those venerable jokes about Christmas gift ties would soon languish and die.

Here are the sort of ties that real men like and want and buy when they buy for themselves.

But that's only part of the story. We probably carry at all times the largest stock of all new and all high-grade neckwear in the city.

And last, but not least, our prices are lower than those of any other store we know of on ties of equal quality and desirability.
